

PAINTX STUDIO FRANCHISE

How does a franchise work?

If you are the owner of the studio, we conclude a partnership agreement with you.

After that we send you a collection of backdrops consisting of different sizes and colors. You can choose any number of backgrounds you need.

We connect your studio to our website and social networks, so photographers can find out where they can take shooting on the backdrops.

How is delivery made?

We will cover the delivery ourselves and deliver by UPS within ten days.

The economic model of the franchise

You, as the owner of the studio, place backdrops for rent, the cost of renting the backdrops is calculated individually by the owner based on the location. We charge 40% after tax on each backdrop rental.

Pledge

To start cooperation after signing the contract, we take a deposit based on the cost of the backdrops on our website.

The partner can at any time return the deposit and send the collection back by paying the shipping cost.
